## **REA PEER REVIEWED PROCESS**

*The articles published in REA undergo a double-blind peer review. The evaluation procedure is the same both for articles submitted directly to the journal and for papers selected for and presented at scientific meetings. This procedure is not adopted for invited articles, which are approved by the Editorial Board. Once the process of evaluation and review has been completed, the decision to publish the article is the prerogative and responsibility of the Editor-in-Chief.*

*The sole responsibility for the articles published rests with the Authors.*
